Tman's is NOT your average Apple Cider Vinegar!

TMAN's Apple Cider Vinegar has undergone a unique aging process that enhances the functionality of the mother enzymes. It also contains unique Organic Trace Minerals which include iron, zinc and potassium which assist with detoxing, revitalising and restoring your body to its natural self, preventing illness. Tman's is a natural product, raw, unfiltered and unpasteurised, unlike harmful chemicals which can destroy your liver and kidneys!

TMAN's is loaded with immune boosting properties and contains Malic Acid, a strong anti-viral component, which is one of the reasons why people drinking it feel healthier and experience less illness, colds and infections.

TMAN's helps to reduce acidity in the body. An acidic body is associated with low energy levels, flu's, viruses and even cancers. It breaks down the acidic crystals formed around joints and helps with pain and inflammation associated with gout and arthritis. Tman's also assists with acid reflux. It aids healthy digestion of foods and can be taken following/ before meals to ease and prevent reflux and heartburn.

TMAN's assists with the stabilising of blood sugar levels, preventing cravings which in addition to a healthy lifestyle can assist with the management of diabetes as well as natural weight loss.

How to use Tman's

Drink: 15ml into a glass of water, x3 times a day, before meals.

Topically: Mix 25ml Tman's and 25ml water, in a sealed container, apply as toner twice a day. Rinsing not necessary.
